

# Flexi-Fix

- Unique 'X' plate can be **screwed** to walls using the same fixing points left by most old accessories, **no drilling required**.
- Unique 'X' plate can be **glued** securely to uneven and shiny tiles or walls, **no drilling required**.
- Unique 'X' plate is universal across the Flexi-Fix collection so you can easily update your accessories in future.

**Flexi™**  
**FIX**  
**Screw or glue**  
Making it easier for you!

## Glue it

1. At the back of the accessory, peel protective film from self-adhesive alignment guide and position accessory in the desired location.

2. Remove the accessory leaving the alignment guide positioned on the wall.

3. Apply flexi-fix adhesive to the wall plate.

4. Place wall plate over the alignment guide and secure in place with locking cam. Allow adhesive to set.

5. Fix accessory in place with concealed grub screw, using the allen key provided.

## Screw it

1. Remove old accessory exposing existing fixing points.

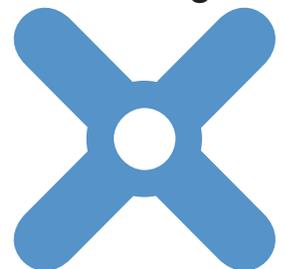

2. Align flexi-fix wall plate to existing fixing points rotating as necessary. Fix in place using the screws provided.

3. Fix accessory in place with concealed grub screw using the allen key provided.
