MAKE IT UNION

Don't change a Briton 1100 Door Closer. Upgrade it.

ASSA ABLOY

Trusted by Professionals

ASSA ABLOY, the global leader
in door opening solutions

The perfect upgrade for the Briton 1100 Series

- **Are you looking to update old or tired door closers?**
- **Need to reduce the range of door closers used in a building?**
- **Want a more flexible door closer that meets the latest equality standards?**

CE24V from UNION is the new way for you to install, maintain and improve fire door safety.

CE Marked for use in all three main applications, with CE24V you have one of the easiest ways to:

- Upgrade fire doors currently using a Briton 1100 Series unit
- Tailor each door to close how you want using just 2 tools
- Reduce the variety of door closers used in a building
- Make maintenance and servicing fast and stress-free - now and in the future

Big features - even bigger value

Everything you need to install a CE24V in the box - fitting templates, screws and brackets - is included, letting you get on with following our simple installation guide. Just use the fitting template designed to help you get a perfect working door closer - every time.

Once fitted, check out the features normally found on door closers costing much more.

- Variable size 2-4 for smooth, effortless closing
- Fully tested back check to reduce risk of damage to surrounding surfaces and users
- A fully adjustable armset to ensure every CE24V you install works perfectly.

Can't slam, can't damage

Sometimes fire doors get thrown open by people in a rush or caught in a gust, slamming the door against a wall - or much worse, into someone on the other side. It's reckless and dangerous, and can damage the door itself, making it less able to block fire and smoke.

CE24V features a fully tested back check which cuts in when a fire door is opened to 75°, preventing damage to nearby walls or furniture and helping to prevent injury to anyone standing close to the door.

Top reasons for installing CE24V.

- Simple, fast swap for the Briton 1100 Series
- UNION 10 year warranty
- CE Marked to EN 1154 as variable power 2-4
- Suitable for all fixing positions
- Fire rated for timber (FD120) doors
- Maximum door width 1100mm (size 4)
- Silver finish

A stress-free way to better fire safety

A building with lots of different door closers can be a nightmare to maintain. Upgrading and standardising to CE24V makes life so much simpler.

- Reduce the amount of replacement door closers you need to keep in stock
- Become a CE24V expert, quickly adjusting each one to suit each fire door
- Improve fire door appearances and keep them looking stylish - easily

CE24V

Fit with confidence

CE24V comes with a UNION 10 year guarantee and the quality you can expect from a brand dating back to 1840.

Fully tested Back Check

Stop your fire doors slamming into surrounding walls or people. CE24V features a fully tested back check, cutting in when the door approaches 75°.

Wood fire door compatible

CE24V can be installed on timber fire doors up to 1100mm width.

Adjust for perfect control

Designed to be easy to set up just how you need it, CE24V can be adjusted for power, closing speed and latching force - simply turn the valve controls to suit.

Brilliant value

Independent latching and closing valves allied to adjustable back check and variable closing power give smooth, precise, reliable door closing control through every degree of motion.

Easy to fit

With CE24V you can replace the Briton 1100 Series unit quickly and easily - and no visible holes.

Everything inside

Simple instructions and all the fixings and specialist tools are included.

Fire rated

CE24V is independently certified for use on fire doors and is CE Marked to EN 1154 with variable power EN 2-4 (EN 1634 up to 120mins for timber).

Quality, Reliability, Expertise.

Three solid reasons to choose UNION

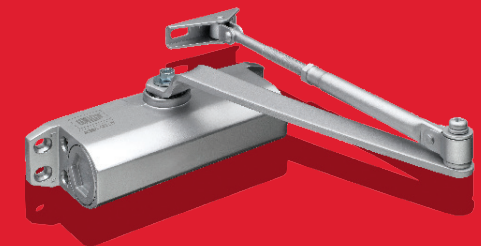

UNION quality

Achieving the perfect combination of technology and materials, each and every one of our products is manufactured to the highest specification - resulting in a quality of product that others can only dream to achieve.

UNION reliability

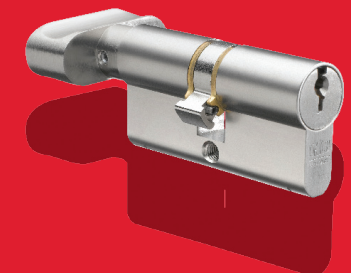

All UNION products undergo the most rigorous testing - way beyond UK standards - in order to guarantee the longest lifetime of excellent performance.

UNION expertise

With a history going back to 1840, we're proud of our heritage, our expertise and our relentless work to deliver the best in door control solutions.

Combine that with ASSA ABLOY's resources and you can be confident you're fitting a product you can trust.
